INTERNSHIPS / TRAININGS

Frontend Web Developer
Hindustan Aeronautics Limited (01/06/2018 – 30/06/2018)

- *Designed and developed the frontend of the website using nuxt.js and vuetify. The features included selection, individual dataset entry, etc.*
- *The major responsibilities were to build the user interface and integration with backend (php, mySql).*

Full Stack Web Developer
Appstone private Limited (01/06/2019– 30/06/2019)

- *Built a website using MERN stack (MongoDB, express, react.js, node.js) with functionalities like working hours of individual employees and summary of time period weekly, monthly and yearly for each project.*
- *Separate admin and user dashboard with different functionalities for both the user groups.*

TECHNICAL SKILLS

HTML	CSS	JavaScript	Microsoft Office
React	Node	MongoDB	C	Git

SOFT SKILLS

Creativity	Leadership	Time Management
Team Work	Quick Learner	Communication

PROJECTS

Dashboard for monitoring startup progress

- *A dashboard was developed to monitor the 19 action plans and to form a medium of communication between DIPP and various industries.*
- *The main features are archives of minutes of meeting, target comparison, notification of achievements or delays of different departments, latest update on action plans etc.*

Book-IT

- *It is an online library management system, developed to solve the problem of issuing books from the college library. It allows the students to check for the availability of the books and issue them if available.*
- *A notification was sent to the issuer through email to remind them to return the book a day before return date.*

ACHIEVEMENTS

- **Smart India Hackathon 2019 Finalist**
  (One of the 36,000 selected students among 2,00,000 participants)
- **Second in Picture Writing**
- **Selected as the House Captain**
  (Chosen to lead the house after clearing the selection process)
